

PLANETA - PLM-II

The manual chain hoist **PLANETA-PLM-II** is our valued price alternative to many hoists on the market. It complies fully with all relevant International standards and the CE-regulations for Europe. Its solid design and easy way of handling made him many friends through the last years. You will find PLM-II in many kinds of industry, shipyards, on cranes and also for maintenance.

Safety brake

The large sized safety brake works instantly when operation is stopped, holding the load safely in any position.

Reliable material

The housings are made of steel, the hook holder and sheeves are of cast steel. This makes PLM-II robust and sturdy.

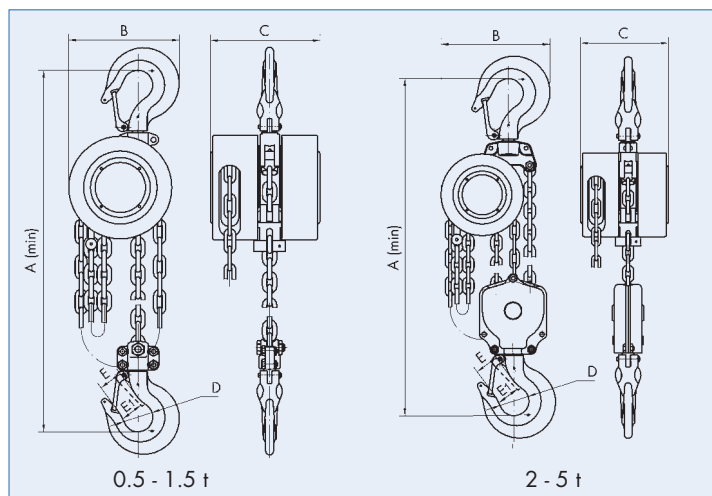

Swivel hook

Top and bottom hook are out of tempered high tensile steel. They have spring loaded, galvanized safety latches with side bending protection.

Luxury rust protection

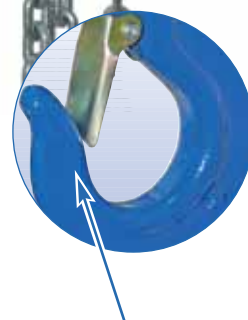

Screws, nuts, discs, washers, bolts, the complete middle section and the chains are galvanized to offer a reliable corrosion protection.

All other steel parts are painted or powder-coated with our best blue finish. Top quality load chain accords to DIN EN 818-7-T and shines zinc galvanized.

Completely zinc plated internal housing

PLM-II 5 t

Die-forged safety hook with locking safety latch
